

Serial No. 10/757,491

Docket #: 2226-001

REMARKS**INFORMATION DISCLOSURE STATEMENT**

Applicant acknowledges Examiner's comments regarding references which were mentioned in the specification and inadvertently missed from the Information Disclosure Statement filed March 17, 2004.

Applicant has provided a Supplemental Information Disclosure Statement under separate cover.

Further, Applicant has corrected an error in the specification in which the references were listed as PCT applications with WO publication numbers, when in fact the applications were published EP applications. Applicant apologizes for the confusion and believes that the specification now correctly identifies the references which are incorporated by reference in the application.

In the DRAWINGS

Applicant has provided replacement Figures 7 and 10c to include reference numerals missing from the figures as filed and as noted by Examiner.

Further please note that the specification has been amended, as recommended by Examiner, to reference Figure 10c, rather than Figure 10b, at page 17, line 3. Thus a number of the reference numerals have not been added as they were already present in Figure 10c. Any remaining reference numerals which were not present in Figure 10c have been added to the amended Figures enclosed herein. Please also note that the specification was amended to indicate the air jet 54 is not shown in Figure 10c.

Serial No. 10/767,491

Docket #: 2226-001

Applicant believes that no new matter has been introduced as a result of the amendments enclosed herein. Reconsideration and allowance of the claims now on file is respectfully requested.

Respectfully submitted,

Date: Dec 2 /05
